Email:kattamuri.bhaskara@gmail.com

**B.Tech with 6 Years of experience in .NET Technology**
**Front End: .NET 4.5/4.0/3.5/2.0, ASP.NET, C#.NET**
**Back End:  SQL SERVER 2008/12**

## Professional Profile:

- Having 6 years of  IT experience  Developing, Designing web applications using ASP.Net and C#.Net.
- Working as a System Analyst with **ValueLabs Solutions**, Hyderabad From Jun'2015 to till now.

## Technical expertise:

- Web application development using **ASP.NET, C#.NET,** Java script.
- Experience in **MVC4** and **WCF** Technology.
- Experience in **WEB API**, LINQ and Angular JS.
- Experience in **SQL Server 2008/12.**
- Good Understanding of Object Oriented programming (**OOPS**).
- Good team player with problem solving and trouble - shooting capabilities.

## Work experience:

- Working as a System Analyst with ValueLabs Solutions, Hyderabad From Jun'2015 to till now.
- Worked as Software Engineer in E-Centric Solutions Pvt. Ltd. from Jun 2011 to June 2015.

## Academic Qualification:

- **B.Tech**(C.S.E) from  St.Theressa Institute of Engineering and Technology, Garividi, Vizianagaram, JNTUK during 2006-10 with an aggregate of **65.13%.**
- **Intermediate** from Board of Intermediate Education during 2004-06 with an aggregate of **86.4%.**
- **SSC** from Board Of Secondary Education during 2003-04 with an aggregate of **71.5%.**

## Technical Profile:

| | | |
|---|---|---|
| **Languages** | **:** | C#.NET. |
| **Tools/Framework** | **:** | Visual Studio 2005/2008/2010/2012. |
| **Web Technologies** | **:** | ASP.Net, HTML, MVC4, WEB API, WCF. |
| **Scripting Languages** | **:** | Java Script, jQuery, Angular JS |
| **Database** | **:** | SQL Server 2008/2012. |
| **OS** | **:** | Windows 2000/03/XP/7. |

## Project Profile:

### Current Project # : Astro CE Prepaid

| | |
|---|---|
| Client | : Astro |
| Company | : ValueLabs Solutions |
| Environment | : MVC4, WEB API, Kentico CMS 9.0, SQL Server 2012 |
| Team size | : 8 |
| Status | : Nov'16 – Till date |

**Project Scope**:

Astro Malaysia Holdings Berhad is a leading content and consumer group in Malaysia and Southeast Asia with a focus entertainment such as watch, listen, read and shop. The Company began as a paid digital satellite radio and television services, Astro IPTV, Astro BTW, Astro PFA, Astro CE_Prepaid and Astro H&S are some of the various services in ASTRO. The application can be used as customer service portal which maintains customer queries and FAQs related to Astro accounts. User can rate the articles and also able to the share the articles in social networking sites.

**Responsibilities:**
- Responsible for coding and logic development for my modules using MVC4(Razor)
- Implemented jquery with Ajax for dynamic page postbacks.
- Implementing data access layers using ADO.NET.
- Involved in writing SQL stored procedures for data access layer
- Involved in client co-ordination.
- Involved in coding & Maintenance of the application.
- Following Agile & Scrum methodologies as per project.

### Project : Ascender Payroll Application

| | |
|---|---|
| Client | : Ascender |
| Company | : ValueLabs Solutions |
| Environment | : WEB API 2.0, Angular JS, SQL Server 2012 |
| Team size | : 8 |
| Status | : June'15 – Nov'2016 |

**Project Scope**:

Payroll web Application – A web based tool to access and manipulate the benefits & payroll of the employees of an organization. It has both Manager and employee work flow. And several modules like Leave Balance, Leave Report, Leave History, Leave maintenance and so on. Ascender payroll application involves; maintenance of employee payroll information and automate the existing process of ascender. Payment related information of employees is maintained in different formats based on employee types.

**Responsibilities:**
- Responsible for coding and logic development for my modules
- Implemented WEB API's for migrating the existing application business logic.
- Exposed the WEB API's to end clients to return data in different formats like XML/JSON.
- Implementing data access layers using ADO.NET.
- Involved in writing SQL stored procedures for data access layer
- Involved in client co-ordination.
- Involved in coding & Maintenance of the application.
- Following Agile & Scrum methodologies as per project.

**Project : Food Corporation Of India(FCI) - Release Order Application**

| | |
|---|---|
| Client | : Food Corporation Of India(FCI) |
| Company | : E Centric Solutions Pvt. Ltd. |
| Environment | : MVC4 with Razor Architecture, SQL Server 2012, SSRS |
| Team size | : 8 |
| Status | : Dec'14 – June'15 |

**Project Scope**:

Release Order Application (ROA) is an initiative by Food Corporation of India (FCI) intended to provide an integrated workflow system to perform the Release Order Operations online. The purpose of this application is to automate the existing Release Order Operations. It can exchange the information electronically with their stakeholders involved in the Release Order Operations including the State Agencies/Parties. It also expected to provide online reports to track and monitor the progress of Release Order Operations through online web portal.

**Responsibilities:**
- Responsible for coding and logic development for my modules
- Implemented SSRS Reports based on the requirements.
- Implemented jquery with Ajax for dynamic page postbacks.
- Implementing data access layers using ADO.NET.
- Involved in writing SQL stored procedures for data access layer
- Involved in client co-ordination.
- Involved in coding & Maintenance of the application.

**Project : DEI Holdings**

| | |
|---|---|
| Client | : Marketing Innovators(Inc.) - USA |
| Company | : Paradigm Creatives |
| Environment | : MVC4 with Razor Architecture, SQL Server 2012 |
| Team size | : 4 |
| Status | : Sep'14 – Dec'14 |

**Project Scope**:

PPM Suite application was a customized Incentive platform which was configured the DEI/Sound United Sales Incentive PPM platform sales claiming module that will be used by Sound United affiliates. Sales Associates to submit, approve, and payout claims for sales activities. Claims will be associated with products only at this time with product payout specified in the Sound United Product/Payout Matrix passed to MI from DEI/Sound United.

**Responsibilities:**
- Responsible for coding and logic development for my modules
- Implemented jquery with Ajax for dynamic page postbacks.
- Implementing data access layers using ADO.NET.
- Involved in writing SQL stored procedures for data access layer
- Involved in client co-ordination.
- Involved in coding & Maintenance of the application.

**Project : PPM Micron**

```
Client              : Marketing Innovators(Inc.) - USA
Company             : Paradigm Creatives
Environment         : Asp.Net 4.0 with C#.Net, SQL Server 2008
Team size           : 7
Status              : Dec'13 – August'14
```

**Project Scope**:

      PPM Suite application was a customized Incentive platform which was configured for the Micron Program to boost their staff performance management. This Project is developed in multilingual languages. The main aim is to providing a amount based on the given ideas & Spot awards. Micron Ideas program allows users to submit business ideas and technical innovations via an easy to navigate web-based, global platform. This will allow users to submit their ideas to improve the organization as a whole. It will also allow Micron to directly reward approved ideas. The Spot & Small Awards program allows Micron to issue the flexibility to allocate budgets by program types or across the programs. The budget to any direct line manager(s). All people leaders will then have the ability to generate monetary awards on the spot.

**Responsibilities:**

- Responsible for coding and logic development for my modules
- Implemented jquery with Ajax for dynamic page postbacks.
- Implementing data access layers using ADO.NET.
- Involved in writing SQL stored procedures for data access layer
- Involved in client co-ordination.
- Involved in coding & Maintenance of the application.

### Project : Hyundai Consumer Campaign

```
Client              : Marketing Innovators(Inc.) - USA
Company             : Paradigm Creatives
Environment         : Asp.Net 4.0 with C#.Net, SQL Server 2008
Team size           : 7
Status              : Jul'13 – Dec'13
```

**Project Scope**:

      Hyundai Consumer Campaign Center is an automated solution to handle HMA's "turnkey" consumer programs.  Each time a new consumer-related opportunity arises, a project is implemented resulting in long lead-times and higher implementation costs. HMA requires an automated solution that allows for the rapid development of miscellaneous consumer-based targeted incentive programs that use program/coupon codes for redemption. HMA should be able to generate unique coupon codes for a program, define the validation criteria, easily customize the look/feel by campaign type, and assign varying offers/payouts for each set of coupon codes.

**Responsibilities:**

- Responsible for coding and logic development for my modules
- Implemented jquery with Ajax for dynamic page postbacks.
- Implementing data access layers using ADO.NET.
- Involved in writing SQL stored procedures for data access layer
- Involved in client co-ordination.
- Involved in coding & Maintenance of the application.

### Project : PPMCulligan

```
Client              : Marketing Innovators(Inc.) - USA
Company             : Paradigm Creatives.
Environment         : Asp.Net 4.0 with C#.Net, ASP, SQL Server 2008
Team size           : 7
Status              : Jan'13 –Jun'13
```

**Project Scope**:

MI will configure their PPMSuite application as a customized Incentive platform for the Culligan Program and Platform Enhancements.

- Reinvigorate program engagement.
- Promote loyal dealers within Culligan.
- Identify and differentiate dealer segments.

Provide participants with easy navigation, simple product access along with other promotional information

**Responsibilities:**

- Responsible for coding and logic development for my modules
- Implementing data access layers using ADO.NET.
- Involved in writing SQL stored procedures for data access layer
- Involved in client co-ordination.

### Project : Abbott Vet

```
Client              : Marketing Innovators(Inc.) - USA
Company             : Paradigm Creatives.
Environment         : Asp.Net 4.0 with C#.Net, SQL Server 2008
Team size           : 3
Status              : Nov'12 – Dec'12
```

**Project Scope**:

MI will configure their PPMSuite application as a customized Loyalty platform for the Abbott Advantage – Veterinary Rewards.

- Loyalty Program to support Abbott's Veterinary Clients within the PPM Suite.
- A registration page to allow Veterinary Clinics to register to join the Abbott Vet Rewards Program.
- Validation that each Clinic that registers is eligible for the program.

**Responsibilities:**

- Responsible for coding and logic development for my modules.
- Implementing data access layers using ADO.NET.
- Involved in writing SQL stored procedures for data access layer.
- Involved in client co-ordination.

### Project : Production Support

```
Client            : Marketing Innovators(Inc.) - USA
Company           : Paradigm Creatives.
Environment       : Asp.Net 4.0 with C#.Net, ASP, SYBASE, SQL Server 2008
Team size         : 7
Status            : May'12 – Nov'12
```

**Project Scope**:

I worked on Production Support for all MI Projects.

**Responsibilities:**
- Fixed the issues on Designing, and functionality.
- Enhanced some modules which are required for their new programs.
- Changed the stored procedures according to the new requirements.
- Interacting with the client according to the change requests and the issues.
- Unit testing is done in all the modules.

### *Project : Hyundai Consumer Campaign 9-level Architecture*

```
Client            : Marketing Innovators(Inc.) - USA
Company           : Paradigm Creatives.
Environment       : Asp.Net 4.0 with C#.Net, WCF, SQL Server 2008
Team size         : 7
Status            : Jan'12 – May'12
```

**Project Scope**:

The purpose and scope of this project is to develop an automated solution that allows for the rapid development of miscellaneous consumer-based targeted incentive programs that use program/coupon codes for redemption. Hyundai American Technical Center should be able to generate unique coupon codes for a program, define the validation criteria, easily customize the look/feel by campaign type, and assign varying offers/payouts for each set of coupon codes. Program offers will include, but are not limited to, pre-paid debit cards of various amounts or specific merchandise. In addition, program offers can provide the element of choice for the payout depending on the program (e.g. consumer can pick a prepaid debit card or other merchandise defined for the program).

**Responsibilities:**
- Responsible for coding and logic development for my modules
- Implemented jquery with Ajax for dynamic page postbacks.
- Implementing data access layers using ADO.NET.
- Involved in writing SQL stored procedures for data access layer
- Involved in client co-ordination.

## Personal Profile:

| | | |
|---|---|---|
| **Name** | : | Kattamuri Bhaskara Rama |
| **Father's Name** | : | K.Madhusudan Rao |
| **Mother's Name** | : | K.Rajyalakshmi |
| **Gender** | : | Male |
